Disclaimer:

Seams are visible as well as noticeable to the touch. Atlanta Kitchen will have absolute authority on the number and location of seams. Seams in veined colors or materials with movement will not match. Horizontal veins may intersect vertical lines at seams. All "L" shaped, "C" shaped, and tops over 10' in length will have seams. All tops are 22.5" in width and all back-splashes will be 3.5" - 4" in height.
